

Public Compliance Criteria List - Contract Production

Compliance Criteria are established by FLOCERT to translate requirements of the Fairtrade Standards and FLOCERT requirements into verifiable control points that are evaluated during the certification process to determine compliance with the Fairtrade Standards. Non-conformity with a Compliance Criterion is considered non-conformity with the respective standard requirement. Each Compliance Criterion is linked to a specific timeline indicating when it needs to be fulfilled.

There are four types of Compliance Criteria:

Core (C): reflect Fairtrade principles and must be complied with.

Major (M): reflect key Fairtrade principles where non-compliance represents a major risk to the Fairtrade system. Non-conformity with a major compliance criterion may lead to certification sanctions.

Development (D): refer to the continuous improvement that certified organisations must demonstrate. Compliance with development criteria is verified against an average score.

Follow-up (F): criteria which are only applicable to follow-up audits.

Instead of a plain yes/no-approach there are 5 levels of compliance, called ranks. Rank 1 and 2 indicate non-compliance whereas ranks 3 to 5 indicate compliance with the Fairtrade Standards. The FLOCERT Public Compliance Criteria List - Contract Production - is based on the Fairtrade Standards for Contract Production (version dated May 1st, 2011) and the Fairtrade Product Standards published by Fairtrade International. The Fairtrade Standards for Contract Production apply exclusively to all Promoting Bodies and registered producers producing Basmati rice or cotton in India and cotton and dried fruit in Pakistan.

This version of the Compliance Criteria supersedes all previous versions. The Compliance Criteria are published in several languages. In the case of an interpretation dispute in any of the published languages, the English version of the Compliance Criteria prevails.

Definitions:

The Promoting Body (PB):

The Promoting Body is the intermediary organisation that either contracts and/or supports small producers in producing and marketing one or more crops and that is responsible for supporting these producers to get organised. The Promoting Body can be either a trader (exporter / processor), or non-trader (NGO or private) which is a legal entity forming a partnership with the producers it contracts and/or supports, i.e. the registered producers. The Promoting Body is the holder of the Fairtrade certificate and is responsible for supporting the registered producers in complying with these standards.

Registered producers:

Registered producers refer to all the small producers contracted and/or supported by the Promoting Body and participating in Fairtrade. The registered producers form the members of the Producer Organisation(s).

Producer Organisation (PO):

The Producer Organisation is a group of small producers contracted and/or supported by the Promoting Body, the registered producers, and whose purpose is to enable the registered producers

to democratically decide on the Fairtrade Premium use and through which they can negotiate with the Promoting Body over terms of trade. The Producer Organisation is expected to become stronger over time and become an autonomous small producers' organisation which can in time comply with the Generic Fairtrade Standards for Small Producers' Organisations.

Producer Executive Body (PEB):

The Producer Executive Body comprises of elected representatives of all the registered producers. This body is the intermediary between the registered producers and the Promoting Body until the Producer Organisation can adequately represent the producers' interest and manage the Fairtrade Premium money. Once the Producer Organisation has developed these capacities, the Producer Executive Body can, if so wished, assume the function of a structure similar to an executive committee.

Contract Production Project:

The Contract Production Project represents the partnership between the Promoting Body and the Producer Organisation(s). In a given context there can be more than one Producer Organisation working together with the same Promoting Body.

This FLOCERT Public Compliance Criteria List is divided into two sections:

PART A comprises the requirements the Promoting Body (PB) must comply with.

PART B comprises the requirements the Producer Organisations (PO) and the registered producers must comply with, with support from and under the responsibility of the PB.

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type

A1.1.2	Promoting Body (CP Project)	A 1.1.0.02	You have appointed a contact person for all certification matters. This person keeps FLOCERT updated with the list of registered producers and important information such as changes in legal structure, statutes, affiliated organisations, number of workers/ registered producers, additional entities, contact details including email address (including Fairtrade reporting contact) and new products to be sold as Fairtrade.	Structural changes occurred that affect certification status without informing FLOCERT OR the PB cannot be reached prior to the audit OR there is no contact person.	Changes in list of registered producers or contact details/persons occurred without the PB informing FLOCERT OR the contact person is unaware of functions.	The PB identified the contact person only during the audit.	The PB identified it in writing prior to the audit.	The PB identified it in writing prior to the audit AND the person actively communicates with FLOCERT.	0	C
FLOCERT requirement	Promoting Body (CP Project)	A 1.1.0.04	The average score for development criteria is equal or above 3.	No		Yes			3	C

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
FLOCERT requirement	Promoting Body (CP Project)	A 1.1.0.05	All non-conformities of the previous audit have been corrected.	The implemented corrective measures failed to remedy the situation; non-compliant behaviour is still broadly in place.	The implemented corrective measures failed to remedy the situation; non-compliant behaviour continues in single instances.	Adequate actions taken to ensure compliance with all the non-conformities observed in the last audit.		Rank 3 and the organisation has done a root cause analysis and measures have been put in place to avoid recurrence.	1	M
FLOCERT requirement	Promoting Body (CP Project)	A 1.1.0.06	The conditions of granted exceptions are met.	No		Yes			1	C

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
FLOCERT requirement	Promoting Body (CP Project)	A 1.1.0.07	(Only applicable if you receive a complaint related to compliance with requirements of the applicable Fairtrade Standards or a Fairtrade product) You handle and document all complaints and follow-up actions relating to compliance with requirements of the applicable Fairtrade Standards. These records must be made available to the auditor.	Complaints were received, which have not been followed up and/or not documented.	There is a written procedure for complaint management, but the complaint has not been followed up and documented.	There is a proper documentation of the actions taken on the complaints and its follow up and documents.		There is a written procedure for complaint management and complaints are handled in line with the procedure AND complaints and follow up are documented.	1	C

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
FLOCERT Requirement	Promoting Body (CP Project)	A 1.1.0.08	(Applicable if the customer has been suspended since the last audit) Upon suspension of Fairtrade certification, the customer has discontinued its use of all advertising matter that contains any reference to its certified status.	The customer is continuing with usage of advertising matter which contains clear reference to its certified status.	The customer has done little to discontinue the use of advertising matter containing references to its certified status, the advertising matter used during suspension refers to the certified status of the customer.	The customer has discontinued its use of all advertising matter that contains any reference to its certified status during suspension.			1	C

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
Trader 1.1.3	Promoting Body (CP Project)	A 1.1.0.11	You have a contract with each additional entity that is not 100 % owned by the master operator that requires compliance with the respective Fairtrade Standard, stating that FLOCERT is authorized to conduct on-site audits of the additional entity (does not apply to entities that do not fall into the scope of certification or have their own FLOCERT certification) and requiring regular reporting, when requested by FLOCERT.	There are no contracts.	The contracts do not have all the requirements listed in this CC or some of the additional entities do not have contracts.	Complete contracts with all additional entities.			0	C
Trader 1.1.3	Promoting Body (CP Project)	A 1.1.0.12	(Does not apply to entities that do not fall into the scope of certification) Your additional entities where Fairtrade activities take place comply with the definition of additional entity and are registered with FLOCERT (see Certification SOP on the FLOCERT website).	No		All the additional entities that are used to handle Fairtrade products are registered with FLOCERT AND comply with the AE definition.			0	C
FLOCERT requirement	Promoting Body (CP Project)	A 1.1.0.13	You have a valid FLOCERT permission to trade or a valid FLOCERT certificate for each product sold as Fairtrade.	No		Yes			0	M

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
A1.1.2	Promoting Body (CP Project)	A 1.1.0.14	You fulfil the following responsibilities in the assurance tool Fairtrade: 1) You verify your Fairtrade sales transactions reported by your customers. 2) You ensure that all transactions are correct.	Verification is not done.	Not all transactions are verified OR transactions are incorrectly verified.	All transactions are correctly verified OR no Fairtrade sales during the audited period.			0	C
FLOCERT requirement	Promoting Body (CP Project)	A 1.1.0.15	(Applicable for organisations participating in a Fairtrade Pilot) You act according to specifications of the pilot agreement.	The specifications of the pilot agreement are not followed.	The specifications of the pilot agreement are partially followed.	The specifications of the pilot agreement are followed.			0	C
FLOCERT requirement	Promoting Body (CP Project)	A 1.1.0.16	(Applicable if Additional Entity is audited, in the same or separate Audit Order) No non-conformities have been identified at the Additional Entity.	Non-Conformity(ies) identified at the Additional Entity audit.	The Additional Entity audit has not yet taken place	No Non-Conformity identified at the Additional Entity audit.			0	C
		A 1.2	Registered Producers are Small Producers							

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
A1.2.1	Promoting Body (CP Project)	A 1.2.0.01	At least half of the registered producers are small producers that comply with the following requirements: (less labour intensive products) Farm work is mostly done by the member and its family and workers are not hired all year around. (highly labour intensive products) - They hire less than a maximum number of permanent workers, as defined and published by Fairtrade International. - The size of the land they cultivate is equal to or below the average of the region, as defined and published by Fairtrade International - They spend most of their working time doing agricultural work on their farm. - Most of their income comes from their farm.	The information available does not allow determining small producer status of members.	Less than 50% of registered producers are small producers.	At least 50% of registered producers are small producers.	RANK 3 AND the information easily available in the producers' lists.	RANK 4 AND the registered producers requirements are clearly mentioned in the member inclusion process.	0	M

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
A1.2.2	Promoting Body (CP Project)	A 1.2.0.02	At least half of the volume of a Fairtrade product that you sell as Fairtrade per year is produced by small producers.	Only 40% or less of sales come from small producers OR the available information makes impossible to estimate this.	Less than 50% but at least 41% of sales come from small producers OR production and sales data is inaccurate or incomplete and the risk is high.	Data is inaccurate or incomplete BUT the risk is negligible and the auditor can estimate compliance.	Production and sales data is complete and the organisation fulfils this rule.	= RANK 4 AND the PB is aware of this rule and checks continuous compliance during sales OR all registered producers are small producers.	0	M
A1.2.3	Promoting Body (CP Project)	A 1.2.0.03	You have an updated list of the registered producers that at least includes information on name, location, land size, production volume, number of (permanent / temporary) workers and membership status	No registered producers list OR there is a list but producers did not indicate their interest.	Registered producers list with more than 10% errors OR without basic information.	Registered producers list with required information and a maximum of 10% errors.	Registered producers list with required information and maximum 2% errors.	Complete registered of producers list with all required information that is regularly updated.	0	C

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
A1.2.4	Promoting Body (CP Project)	A 1.2.0.04	You have at least one year of practical experience in supporting registered producers and in helping them to meet the - volume, - quality and - environmental requirements of the target market.	The PB has no previous supporting experience.	The PB has previous supporting experience but has not supported the registered producers for a year.	The PB has been supporting the registered producers for at least one year.	The PB has been supporting the registered producers for at least one year AND can show improvements on volumes, quality and/or social/environmental performance.	=RANK 4 AND the PB has experience in getting small producers organized.	0	C

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
A1.2.5	Promoting Body (CP Project)	A 1.2.0.05	You have experience in selling products to the international market.	The PB has no previous export experience.		The PB has at least made one sale to the international market.	The PB has at least 2 years-experience in selling to the international market.	The PB has at least 2 years-experience in selling to the international market AND has sold product from the registered producers to the international market.	0	C
A1.2.6	Promoting Body (CP Project)	A 1.2.0.06	(Not applicable if the PB is an NGO) You have the logistics and communication equipment in place needed for selling.	No		Yes, at least transport and phone+internet access.		Yes, all items specified in standard: transport, phone+internet, export licenses and processing and storage facilities.	0	C

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
A1.2.6	Promoting Body (CP Project)	A 1.2.0.07	In cases where you lease the services such as internet and telephone facilities, export licenses, processing and storage facilities, transportation from third parties and subcontractors, traceability should be guaranteed.	No, the PB has not communicated traceability requirements to subcontractors.	No, the PB has communicated traceability requirements but they are not followed.	Yes, the PB has communicated traceability requirements and these are followed.		Yes, the PB has communicated traceability requirements and these are followed AND the PB regularly audits the subcontractors.	0	C
A1.2.8	Promoting Body (CP Project)	A 1.2.0.08	You demonstrate your competency and resources to provide the necessary services and trainings to support the formation of one or more producer organization.	The PB has no resources and no plan on how to support the formation of producer organization (s).	The PB has a plan on how to support the formation of producer organization (s) BUT has no budget for it.	The PB has plan and definite budget to provide the necessary services and trainings.	The PB has the resources, a plan and experience in the formation of producer organization (s).	The PB has already achieved the formation of one or more producer organizations compliant with SPO standards.	0	C

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
A1.2.9	Promoting Body (CP Project)	A 1.2.0.09	You have included the Fairtrade concept in your policy or mission statement.	No reference to Fairtrade concept in any document.	A separate policy developed, but the concept is not included in the main policy/mission statement.	The concept included in writing in mission or policy statement.	The concept included in writing in mission or policy statement AND on other business documents (internal policies, strategic plans, etc).	=RANK AND the PB is a mission-driven organization .	0	C
A1.2.9	Promoting Body (CP Project)	A 1.2.0.10	You have signed an agreement with the PEB to support the registered producers in becoming a producer organization.	No agreement signed OR the agreement does not specify the PB will support producers in becoming a producer organization (s).	Agreement signed but it was not understood by / explained to the PEB.	Agreement signed and understood.	Signed agreement with PB's responsibilities clearly specified (tasks, distributions of costs and timelines).	Signed agreement with PB's responsibilities clearly specified (tasks, distributions of costs and timelines) that was written by the PB and the PEB together.	0	C
		A2	Trade							

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
		A 2.1	Traceability							
A.2.1.1	Promoting Body (CP Project)	A 2.1.0.01	You can only sell as Fairtrade, products that are sourced from registered producers.	The product is not differentiated and more than 10 % of sales are mixed up (product from registered and non registered producers) OR product from non registered producers knowingly sold as Fairtrade.	2% -10% of sales are mixed up (product from registered and non registered producers).	No mix up of product except possible mistakes up to 2% sales OR the situation makes mixture of products is very unlikely (negligible risk).	No mix up of product and no mistakes OR the PB does not source from non-registered producers.	No mix up of product and no mistakes AND compliant with traceability system AND has measures in place to avoid non-member business.	0	M

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
A.2.1.1	Promoting Body (CP Project)	A 2.1.0.02	You ensure that products from registered producers are physically separated from non-registered producers' products during transport, processing and storage.	No system to physically separate and mixing up indeed happens.	Mixture of products from registered producers (at group or individual level) is very likely to happen and the PB took deficient actions.	There is a system in place to physically separate product even if there are small mistakes.	There is a system in place to physically separate product with no mistakes.	There is a physical traceability system in place to trace back product to each individual producer with no mistakes.	0	C
A.2.1.2	Promoting Body (CP Project)	A 2.1.0.03	You have written down the product flow from the registered producers to you.	The PB cannot explain / does not fully know the product flow.	The PB can explain the product flow but not reflected in writing /drawn.	Basic written/drawn description of the product flow.	Full description of product flow.	Full description as part of a written traceability procedure.	0	C
A.2.1.3	Promoting Body (CP Project)	A 2.1.0.04	You keep records of products sourced from the registered producers which indicate - the name of producer, - date of purchase, - product name, - volume and - price received by the member.	Records are missing.	Records exist but are incomplete (not all transactions recorded or not all details as required in the criteria are recorded).	Complete sourcing records.	Complete records as part of a database of stock, purchases and sales, but it is not up to date.	Complete records as part of a database of stock, purchases and sales and fully up to date.	0	C

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
A.2.1.4	Promoting Body (CP Project)	A 2.1.0.05	When you sell a Fairtrade product, you ensure that all the sales documents (e.g. invoices, delivery notes) clearly indicate that the product is Fairtrade.	Term "Fairtrade" or similar missing in all documents.	Term "Fairtrade" or similar is mentioned in invoices BUT it is not possible to find a reference in other documents OR term "Fairtrade" missing in some invoices.	Term "Fairtrade" or similar is mentioned in all invoices AND it is possible to find a reference in other documents.	Term "Fairtrade" or similar is mentioned in all contracts, invoices and delivery notes AND it is possible to find a reference in other documents.	Term "Fairtrade" AND the FLO-ID are mentioned in all contracts, invoices, B/L, delivery notes, packing lists, etc.	0	C

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
A.2.1.5	Promoting Body (CP Project)	A 2.1.0.06	You keep records of all your Fairtrade sales which indicate: - volume sold, - name of the buyer and its Fairtrade International ID number, - date of the transaction and - reference to sales documents in order for FLOCERT to be able to link these records with the corresponding sales documents. All invoices to your buyer include the processing yield if this is needed to calculate the applicable Fairtrade Premium / Fairtrade Minimum Price. These records are linked with the corresponding sales documents. The PB invoices for the correct premium amount promptly and ensures forwarding the correct premium amount to the premium account promptly	Records are missing. Premium not invoiced.	Records exists but are incomplete. Premium not correctly invoiced.	Complete Fairtrade sales records with a reference to sales documents. Premium correctly invoiced.	Complete records as part of a database of stock, purchases and sales but it is not up to date. Premium correctly invoiced	Complete records as part of a database of stock, purchases and sales and fully up to date. Premium correctly invoiced.	0	C
A.2.1.6	Promoting Body (CP Project)	A 2.1.0.07	If you process Fairtrade products, you keep records that specify the amount of product before and after processing.	PB does not know processing yields.	PB knows rough average yields but has no records.	PB creates/obtains a record showing calculated yearly average yields.		PB creates/obtains records showing real yields of each processing batch.	0	C

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
A.2.1.7	Promoting Body (CP Project)	A 2.1.0.08	(If you produce and process cocoa and sell to operators without physical traceability this requirement does not apply) Fairtrade products are clearly marked with the relevant Fairtrade International IDs or the wording "Fairtrade International/Fairtrade"	On-product marks do not mention any term that can be identified as Fairtrade.	On-product marks that are frequently lost.	Detachable on-product mark with the term "Fairtrade" or similar.	Non-detachable on-product mark with the term "Fairtrade" or similar.	Non-detachable on-product mark with the term "Fairtrade" or similar and the name and ID of seller and buyer.	0	C
Trader 2.2.1 and 2.2.4	Promoting Body (CP Project)	A 2.1.0.09	(Food composite products) (Not applicable for FSI) You ensure that food composite ingredients and food composite products contain as many Fairtrade ingredients as available unless you have been granted an exception.	No		Yes			0	C
Trader 2.2.2	Promoting Body (CP Project)	A 2.1.0.10	(Food composite products) (Not applicable for FSI) Food composite products contain at least 20% Fairtrade content. You express the percentages of the Fairtrade ingredient/s in weight (or volume) relative to the total weight (or volume) of all the initial ingredients before processing. For products with >50% added water or dairy, you are allowed to exclude all added water and/or dairy from the percentage calculations.	No		Yes			0	C

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
Trader 2.2.3	Promoting Body (CP Project)	A 2.1.0.11	(Finished food composite products) (Not applicable for FSI) If you sell food composite products, you declare on the back of the packages the minimum percentage of Fairtrade certified ingredients used, unless this contradicts national law.	No		Yes			0	C
A.2.1.1	Promoting Body (CP Project)	A 2.1.0.12	You physically separate Fairtrade products from non-Fairtrade products at all stages of production, until the product is sent back to the operator.	No system to separate and mixing up indeed happens.	Mixture of Fairtrade products and non-Fairtrade products is very likely to happen and the sub-contractor took deficient actions.	There is a system in place to separate Fairtrade and non-Fairtrade product even though there are small mistakes.	There is a system in place to separate product with no mistakes.	There is a physical traceability system in place.	0	C

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
A.2.1.4	Promoting Body (CP Project)	A 2.1.0.13	Fairtrade products received from and sent back to the operator are clearly identified as Fairtrade in all documents and the sub-contractor's Fairtrade products are clearly identified as Fairtrade.	Term "Fairtrade" or similar missing in all documents.	Term "Fairtrade" or similar in transaction documents BUT it is not possible to find a reference in other documents OR term "Fairtrade" missing in some transaction documents.	Term "Fairtrade" or similar in all transaction documents AND it is possible to find a reference in other documents.	Term "Fairtrade" or similar in all contracts, transaction documents and delivery notes AND it is possible to find a reference in other documents.	Term "Fairtrade" or similar in all contracts, transaction documents, B/L, delivery notes, packing lists, etc.	0	C
A.2.1.5	Promoting Body (CP Project)	A 2.1.0.14	You keep records of all your Fairtrade transactions which indicate: - volume, - name of the operator and its Fairtrade International ID number, - date of the transaction The records are linked with all corresponding documents. The sub-contractor has clearly identified all certified products as Fairtrade in all documentation about volumes received from and sent to the operator.	Records are missing.	Records exists but are incomplete.	Complete Fairtrade transaction records.	Complete records as part of a database of stock, purchases and sales but it is not up to date.	Complete records as part of a database of stock, purchases and sales and fully up to date.	0	C

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
A.2.1.6	Promoting Body (CP Project)	A 2.1.0.15	(Subcontracted additional entity) If you process Fairtrade products, you keep records that specify the amount of product before and after processing.	Sub-contractor does not know processing yields.	Sub-contractor knows rough average yields but has no records.	Sub-contractor creates/obtains a record showing calculated yearly average yields.		Sub-contractor creates/obtains records showing real yields of each processing batch.	0	C
Trader 2.1.6	Promoting Body (CP Project)	A 2.1.0.16	(If you process cocoa this requirement only applies if the certified entity you are subcontracted to implements physical traceability) When delivered the subcontractor clearly identifies the Fairtrade products as Fairtrade.	On-product marks do not mention any term that can be identified as Fairtrade.	On-product marks are frequently lost.	Detachable on-product mark with the term "Fairtrade" or similar.	Non-detachable on-product mark with the term "Fairtrade" or similar.	Non-detachable on-product mark with the term "Fairtrade" or similar and the name and ID of seller and buyer.	0	C

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
Trader 2.1.3 and 2.14	Promoting Body (CP Project)	A 2.1.0.17	(Cocoa) If you want to sell cocoa as physically traceable to operators that have physical traceability in place, you physically separate the product during processing. These products, when sold, are identified as a Fairtrade product with physical traceability on the packaging as well as the related documentation (e.g. purchase invoices, etc.).	No system to separate and mixing up indeed happens.	Mixture during processing is very likely to happen and the organisation took deficient actions.	There is a system in place to separate products even if there are small mistakes. The products are identified as physically traceable at least through the lot numbers.	There is a system in place to separate products without mistakes. The products are identified as physically traceable on the invoices and on the product.	There is a physical traceability system in place to trace back products to each individual producer without mistakes. The products are identified as physically traceable on the invoices and on the product.	0	C

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
Trader 2.1.4 and 2.1.5	Promoting Body (CP Project)	A 2.1.0.18	(If you trade and/or process cocoa and for activities carried out under FSI cotton model after ginning this requirement only applies if you wish to implement physical traceability) You identify Fairtrade products as Fairtrade at all stages (e.g. storage, transport, processing, packaging, labelling and handling).	Documents, records and on-product marks do not mention any term that can be identified as Fairtrade.	On-product marks that are frequently lost and some records cannot be identified as Fairtrade.	All records, documents and detachable on-product mark with the term "Fairtrade" or similar.	All records, documents and non-detachable on-product mark have the term "Fairtrade" or similar.	All records, documents and non-detachable on-product mark have the term "Fairtrade" or similar and the name and ID of seller and buyer.	0	C
Trader 2.1.7	Promoting Body (CP Project)	A 2.1.0.19	(Cocoa)(Not applicable for FSI) If you and the subcontractor combine physically and non-physically traceable ingredients in Fairtrade composite products, you ensure that the Fairtrade physically traceable ingredients comply with the physical traceability requirements. If for technical reasons this is not possible, you have been granted an exception by the certification body.	No		Yes			0	C
Trader 2.1.10	Promoting Body (CP Project)	A 2.1.0.20	(Cocoa) (Single Site Mass Balance) You receive and process Fairtrade inputs at the same site where the Fairtrade output is processed.	No		Yes			0	C
Trader 2.1.11	Promoting Body (CP Project)	A 2.1.0.21	(Cocoa) You ensure that Fairtrade inputs are of the same kind and quality as the inputs used to process the Fairtrade output (like for like).	No		Yes			0	C

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type

A3.2.4	Promoting Body (CP Project)	A 3.2.2.03	All people, including registered producers and workers, wear appropriate personal protective equipment (PPE) when handling pesticides or hazardous chemicals.	No measures implemented and registered producers and workers work unprotected as common practice.	Basic measures have been implemented BUT interviewed registered producers/workers recognised it is not used at all times OR workers are charged for PPE OR penalised for normal wear-out.	Measures have been implemented and registered producers have access to PPE AND workers are provided with free essential PPE (employer may penalise for lost/damage due to improper use).	= RANK 3 AND interviewed registered producers and workers declare it is used at all times.	= RANK 4 AND PPE is adapted to local weather conditions as much as possible in order to increase usability, or no pesticides or hazardous chemicals are used.	3	C

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
A3.2.5	Promoting Body (CP Project)	A 3.2.2.04	You raise awareness of all registered producers and workers about the hazards and risks related to pesticides and other hazardous chemicals, even if they are not directly handling these materials.	The PB did not carry out any information activity.	Less than 50% of registered producers and workers have been informed OR content/quality of information was insufficient.	At least 50% of registered producers and workers have been informed AND content of information was sufficient.	At least 80% of registered producers and workers have been informed AND content of information was sufficient AND there are informative materials.	=RANK 4 AND there is an ongoing training/awareness plan/ refresher training, or no pesticides or hazardous chemicals are used.	3	D

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
A3.2.6	Promoting Body (CP Project)	A 3.2.2.05	If you or the producer organization have a central storage area for pesticides and other hazardous chemicals, you maintain it in a way that minimizes risk and you ensure that it: • Is locked and accessible only to trained and authorized personnel; • Is ventilated to avoid a concentration of toxic vapours; • Has equipment, such as absorbent materials, to handle accidents and spills; • Does not contain food; • Contains pesticides that are clearly labelled indicating contents, warnings, and intended uses, preferably in the original container when possible; and • Contains information on the proper handling of pesticides (safety sheets).	Store rooms controlled by the PB or PO(s) do not minimize risks according to standard and due to their location represent a high risk of accidents.	Store rooms controlled by the PB or PO(s) do not fulfil all requirements to minimize risks as described in the standard.	Store rooms controlled by the PB or PO(s) are at least locked and accessible only to trained and authorised personnel, ventilated, with labelled materials and do not contain food.	Store rooms controlled by the PB or PO(s) minimize risks according to all specifications in the requirement AND stocks are as minimal as possible.	= RANK 4 AND there are additional safety measures such as contact details for emergencies, fire extinguishers, waterproof floor, concrete curbing, sloped floor, etc. or no pesticides or hazardous chemicals are used.	0	C
		A 3.2.2c	Choice of Pesticides Used (Pest Management) (The requirements in the following chapter are also applicable to own additional entities.)							

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
A3.2.7	Promoting Body (CP Project)	A 3.2.2.06	You have compiled a regularly updated list of the pesticides that are used on the Fairtrade crops and the fields where they are grown that indicates which of those materials are in the Fairtrade International Prohibited Hazardous Materials List (HML) Part 1 (Red List), Part 2 (Orange List) and Part 3 (Yellow List) and includes at a minimum: • Name of the active ingredient and commercial brand name and • Crop on which they are used; • Name of targeted pest or disease;	There is no list.	When cross-checked with reality the list has important shortcomings (missing pesticides) OR the list has not been updated for more than 3 years OR the list does not identify Red, Orange and Yellow list pesticides.	There is a sufficiently complete list. The list was developed based on local knowledge and informal communication with registered producers.	There is a sufficiently complete list. The list was developed based on documentation at producer level.	There is an accurate list AND organisation regularly documents pesticides used by registered producers as part of a general ICS and also monitors pesticides available in surrounding stores.	0	C

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
A3.2.8	Promoting Body (CP Project)	A 3.2.2.07	You have developed a procedure to ensure that the registered producers do not use any materials listed in the Fairtrade International Hazardous Materials List (HML) (Red List) on their Fairtrade crops and the fields where they are grown. This must at least include activities that raise the registered producers' awareness of the HML.	The PB did not consider any measure.	The PB has ideas of how to improve but they have not been implemented OR implemented measures but not described them in writing.	The PB has implemented at least one measure on awareness raising, i.e. providing information to registered producers in any form AND described it in writing.	The PB has implemented a series of measures (for example: records at producer level, awareness raising, sample internal inspections, peer-review) AND described them in writing.	There is an (organic) Internal Control System that covers all registered producers AND that works well.	1	M

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
A3.2.9	Promoting Body (CP Project)	A 3.2.2.08	You work with all the registered producers towards: - minimising the amount of herbicides used - promoting other weed prevention and control strategies.	The PB did not carry out any activity.	Less than 50% of registered producers who use herbicides benefited from training or other promoting activity.	At least 50% of registered producers who use herbicides have been trained on weed prevention and control strategies OR the PB carried out other promoting activities with the same reach.	At least 80% of registered producers who use herbicides have been trained on weed prevention and control strategies OR the PB carried out other promoting activities with the same reach.	=RANK 4 AND some preventive and some alternative weed prevention and control strategies are implemented.	3	D
		A 3.2.3.a	Soil Erosion (Soil and Water)							
A3.2.10	Promoting Body (CP Project)	A 3.2.3.01	You have identified land at risk of soil erosion.	The PB did not make any identification AND there are important potential erosion problems.	The PB did not make any identification.	The PB documented (in writing or maps) potential general problems in the area.		The PB inspected all farms and documented in writing potential problems.	3	D

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
A3.2.10	Promoting Body (CP Project)	A 3.2.3.02	You identify land that is already eroded in the fields where the registered producers plant Fairtrade crops.	Important erosion problems exist and the PB is unaware.	Mild erosion problems exist and the PB is unaware.	The PB documented (in writing or maps) existing general problems in the area.		The PB inspected all farms and documented in writing existing problems.	3	D
A3.2.11	Promoting Body (CP Project)	A 3.2.3.03	You train registered producers where risk of soil erosion or already eroded land have been identified, on practices that reduce and/or prevent soil erosion.	The PB did not carry out any training OR the PB failed to identify existing soil erosion problems.	Less than 50% of registered producers with risk of erosion have been trained OR content/quality of training was insufficient.	At least 50% of registered producers with risk of erosion have been trained AND content of training was sufficient.	At least 80% of registered producers with risk of erosion have been trained AND content of training was sufficient AND training materials are clear and correct.	=RANK 4 AND some preventive and corrective measures are ongoing.	6	D
		A 3.2.3.b	Handling Fertilizers (Soil and Water)							

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
A3.2.12	Promoting Body (CP Project)	A 3.2.3.04	You train registered producers about the appropriate use of fertilizers. This includes: • measures to ensure that fertilizers (organic and inorganic) are applied in amounts that respond to the nutrient need of the crop • measures to store fertilizers separately from pesticides in a way that minimizes risks of polluting water.	The PB did not carry out any training.	Less than 50% of registered producers have been trained OR content/quality of training was insufficient.	At least 50% of registered producers have been trained AND content of training was sufficient.	At least 80% of registered producers have been trained AND content of training was sufficient AND training materials are clear and correct.	=RANK 4 AND some preventive and corrective measures are implemented.	6	D
		A 3.2.3.c	Soil Fertility (Soil and Water)							
A3.2.13	Promoting Body (CP Project)	A 3.2.3.05	You document the measures that you or the registered producers have implemented to improve soil fertility.	The PB did not prepare any report and cannot explain practices.	The PB did not prepare any report but can explain to auditor the practices in this regard.	The PB prepared a basic report but some existing practices that could be reported are missing / the PB did not include all relevant practices.	The PB evaluated internally its practices and prepared a complete report.	= RANK 4 AND the PB benefits from advice from local experts such as authorities, universities or NGOs OR updates the report adding new practices/measures.	3	D
		A 3.2.3.d	Sustainable Water Sources (Soil and Water)							

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
A3.2.14	Promoting Body (CP Project)	A 3.2.3.06	You have a list of water sources used for irrigating and processing Fairtrade crops.	The PB does not know where irrigation water and water used for processing comes from.	The PB only knows some of the sources OR knows all sources but this is not reflected in writing.	The PB has a map or written list of all sources of water for irrigation and processing with basic information (river, seasonal river, artificial dam, underground well, rain water collector, etc).	= RANK 3 AND with identified irrigation method: surface (basin, furrow, sprinkler, drip, etc).	= RANK 4 AND the PB can prove that the use of all sources is authorised.	3	D

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
A3.2.15	Promoting Body (CP Project)	A 3.2.3.07	You stay informed about the situation of the water sources in your area.	The organisation does not know if water sources are sustainable and there is indeed a depletion problem.	The organisation does not know if water sources are sustainable (and depletion problem is not confirmed) OR sources are considered unsustainable and no action was taken.	The organisation can explain if sources of water are sustainable	= RANK 3 AND the organisation has drafted a plan to improve sustainability of water sources.	= RANK 4 AND the organisation has a drafted plan to improve sustainability of water sources in coordination/cooperation with the community and relevant authorities.	6	D

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
A3.2.15	Promoting Body (CP Project)	A 3.2.3.08	In case local environmental authorities or other entities consider that your water sources are being depleted, or are in a critical situation or under excessive pressure, you engage in a dialogue with the authorities or local existing initiatives in order to identify possible ways to be involved in research or solution finding. Such dialogues are to be documented and can be in the form of emails, letters, minutes, etc.	There is an identified problem and the PB did not contact relevant stakeholders.	The PB has contacted relevant stakeholders BUT there is no documentation of it.	The PB has contacted relevant stakeholders and there is documentation of the dialogue.	The PB has contacted relevant stakeholders and solutions have been identified.	The PB has a drafted plan to solve the problem in coordination/cooperation with the relevant stakeholders and the issues are being addressed.	6	D
		A 3.2.3.e	Sustainable Water Use (Soil and Water) (The requirements in the following chapter are also applicable to own additional entities.)							
A3.2.16	Promoting Body (CP Project)	A 3.2.3.09	You provide training to the registered producers on procedures to use water efficiently. These include: • estimating how much water is needed to irrigate and/or process your crop • measuring (or estimating) how much water is extracted from the source • measuring how much water is used for irrigation and/or processing • providing maintenance to the water distribution system • adopting as applicable, methods to recirculate, reuse and/or recycle water.	The PB did not carry out any training.	Less than 50% of registered producers have been trained OR content/quality of training was insufficient.	At least 50% of registered producers have been trained AND content of training was sufficient.	At least 80% of registered producers have been trained AND content of training was sufficient AND training materials are clear and correct.	=RANK 4 AND some procedures for efficient use of water are implemented.	3	D

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
A3.2.17	Promoting Body (CP Project)	A 3.2.3.10	You must handle waste water from central processing facilities in a manner that does not have a negative impact on water quality, soil fertility or food safety.	Quality of water has not been analysed OR no measures for adequate handling are in place.	Quality of water has been analysed BUT quality is below the levels required by legislation OR organisation does not know quality levels required by legislation.	Quality of water has been analysed AND quality is equal or above the levels required by legislation OR, if quality is below required levels, adequate measures have been implemented.	= RANK 3 AND analysis is made regularly.	= RANK 4 AND the PB has a plan for further improving quality of water.	6	D

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
A3.2.18	Promoting Body (CP Project)	A 3.2.3.11	You provide training to the registered producers about waste water and its health risks as well as about the prevention of such risks and treatment methods of waste water and their implementation.	The PB did not carry out any training.	Less than 50% of registered producers have been trained OR content/quality of training was insufficient.	At least 50% of registered producers have been trained AND content of training was sufficient.	At least 80% of registered producers have been trained AND content of training was sufficient AND training materials are clear and correct.	= RANK 4 AND some measures for waste water treatment / improvement of sanitation conditions are implemented.	6	D
		A 3.2.4	Waste							
A3.2.19	Promoting Body (CP Project)	A 3.2.4.01	You ensure that the registered producers keep their farms free of hazardous waste.	Hazardous waste is found on producers' farms outside designated storage areas.	Hazardous waste is found on producers' farms outside designated storage areas BUT the PB carried out awareness activities.	No hazardous waste is found on farms (except on designated storage areas).	No hazardous waste is found on farms (except on designated storage areas) AND the PB carried out awareness activities.	= RANK 4 AND there is an (organic) Internal Control System in place that works well.	1	M

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
A3.2.20	Promoting Body (CP Project)	A 3.2.4.02	You raise awareness of registered producers about re-using organic waste through the implementation of practices that allow nutrients to be recycled. You and the registered producers may only burn organic waste if it is required by applicable legislation for phytosanitary purposes.	The PB did not carry out any information activity OR organic waste is burned when not required by legislation.	Less than 50% of registered producers have been informed OR content/quality of information was insufficient.	At least 50% of registered producers have been informed AND content of information was sufficient.	At least 80% of registered producers have been informed AND content of information was sufficient AND there are informative materials.	=RANK 4 AND some measures for re-using organic waste are implemented.	3	D
		A 3.2.5	GMO							
A3.2.21	Promoting Body (CP Project)	A 3.2.5.01	You do not intentionally use genetically engineered seed or planting stock for Fairtrade crop(s).	More than 10 % of Fairtrade crops is GMO OR the PB knowingly uses GMO seeds/planting stock.	Use of GMO is very likely to happen AND the PB took no actions OR 5-10% of Fairtrade crops is GMO.	There is no system but no contamination is detected (mistakes allowed up to 5 % of crop).	= RANK 3 AND the PB is compliant with Standard requirement 3.2.32.	= Rank 4 AND there is an (organic) Internal Control System in place that works well.	0	M

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
A3.2.21	Promoting Body (CP Project)	A 3.2.5.02	You implement practices to avoid GM contamination in seed stocks.	Known sources are not free from contamination BUT the PB did not implement any measure.	The PB does not know where seeds/plants are obtained OR most registered producers are unaware of local risks.	The PB generally knows where registered producers obtain seeds/plants and sources are free from contamination AND most interviewed producers could identify the local risks.	The PB has prepared awareness raising programmes OR offers registered producers the tools to avoid contamination.	The PB has prepared awareness raising programmes AND offers registered producers the tools to avoid contamination.	0	M
		A 3.2.6	Biodiversity							

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
A3.2.22	Promoting Body (CP Project)	A 3.2.6.01	You report on activities that you or the registered producers carry out to protect and enhance biodiversity.	The PB did not prepare any report and there are no practices put in place.	The PB did not prepare any report but can explain to auditor the practices in this regard.	The PB prepared a basic report but some existing practices that could be reported are missing / the PB did not include all relevant practices.	The PB evaluated and quantified the practices and prepared a complete report.	= RANK 4 AND the PB benefits from advice from local experts such as authorities, universities or NGOs OR updates the report adding new practices.	6	D
A3.2.23	Promoting Body (CP Project)	A 3.2.6.02	You raise awareness amongst registered producers so that no collecting or hunting of rare or threatened species takes place.	The PB did not carry out any information activity.	Less than 50% of registered producers have been informed OR content/quality of information was insufficient.	At least 50% of registered producers have been informed AND content of information was sufficient.	At least 80% of registered producers have been informed AND content of information was sufficient AND there are informative materials.	=RANK 4 AND no collection or hunting of rare and threatened species takes place.	3	D

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
A3.2.24	Promoting Body (CP Project)	A 3.2.6.03	You raise awareness amongst registered producers so that alien invasive species are not introduced.	The PB did not carry out any information activity.	Less than 50% of registered producers have been informed OR content/quality of information was insufficient.	At least 50% of registered producers have been informed AND content of information was sufficient.	At least 80% of registered producers have been informed AND content of information was sufficient AND there are informative materials.	RANK 4 AND alien invasive species are not used.	3	D
		A 3.2.7	Energy and Green House Gas (GHG) Emissions (The requirements in the following chapter are also applicable to own additional entities.)							

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
A3.2.25	Promoting Body (CP Project)	A 3.2.7.01	You keep records of energy consumption at the central processing facilities where non-renewable energy is used. You take measures to use energy more efficiently and replace non-renewable sources by renewable ones as far as possible at the central processing facilities.	The PB does not measure energy consumption.	The PB is measuring energy consumption BUT has not planned energy efficiency measures.	The PB is measuring energy consumption AND knows sources of renewable energy to compare AND has planned energy efficiency measures.	The PB is measuring energy consumption AND has taken energy efficiency measures (maintenance of equipment, use of renewable energy, etc) OR has changed to renewable sources.	= RANK 4 AND the PB can prove energy consumption was indeed reduced since record-keeping started.	3	D

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
A3.2.26	Promoting Body (CP Project)	A 3.2.7.02	You report on the practices that registered producers carry out to reduce GHG emissions and increase carbon sequestration.	The PB did not prepare any report and there are no practices put in place.	The PB did not prepare any report but can explain to auditor the practices in this regard.	The PB prepared a basic report but some existing practices that could be reported are missing / the PB did not include all relevant practices.	The PB evaluated and quantified the practices and prepared a complete report.	= RANK 4 AND the organisation benefits from advice from local experts such as authorities, universities or NGOs OR updates the report adding new practices/measures.	6	D
		A 3.3	Labour Conditions							
		A 3.3.1	Freedom from Discrimination (The requirements in the following chapter are also applicable to own additional entities.)							

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
A3.3.1	Promoting Body (CP Project)	A 3.3.1.01	You make the registered producers aware of the laws relating to sexual harassment. If there are no such laws, you draft a suitable policy on this subject and make the registered producers aware of it.	The PB did not carry out any information activity OR did not draft a policy (if necessary, only if there are no sexual harassment laws).	Less than 50% of registered producers have been informed OR content/quality of information was insufficient.	At least 50% of registered producers have been informed AND content of information was sufficient AND trainings are planned/scheduled for the remaining producers.	At least 80% of registered producers have been informed AND content of information was sufficient AND there are informative materials.	=RANK 4 AND a special grievance procedure is in place for cases of sexual harassment .	3	D
		A 3.3.2	Freedom of Labour (The requirements in the following chapter are also applicable to own additional entities.)							

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
A3.3.2	Promoting Body (CP Project)	A 3.3.2.01	You make the registered producers aware of the ILO conventions and encourage them to follow them with regard to their labour force.	The PB did not carry out any information activity.	Less than 50% of registered producers have been informed OR content/quality of information was insufficient.	At least 50% of registered producers have been informed AND content of information was sufficient AND trainings are planned/scheduled for the remaining producers.	At least 80% of registered producers have been informed AND content of information was sufficient AND there are informative materials.	=RANK 4 AND a special programme to prevent bonded labour and child labour has been put in place.	3	D
A3.3.2	Promoting Body (CP Project)	A 3.3.2.02	You ensure that the registered producers comply with the requirements regarding child labour and child protection in chapter B of this Standard.	No		Yes			0	M
		A4	Business and Development							
		A 4.1	Development Potential							

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
A4.1.1	Promoting Body (CP Project)	A 4.1.0.01	You carry out a needs assessment of how Fairtrade benefits can promote environmentally sustainable social and economic development of registered producers.	The PB did not carry out a needs assessment.	The PB carried out a needs assessment but not reflected in writing OR written needs assessment lacks key information.	The PB documented a basic needs assessment that identifies registered producers' needs and Fairtrade benefits, and explains how the benefits can address the needs.	=RANK 3 AND it was developed in close consultation with registered producers/PB.	=RANK 4 AND the needs assessment is the basis for the development of the ODP.	0	C
A4.1.2	Promoting Body (CP Project)	A 4.1.0.02	You and the registered producers develop an organizational development plan (ODP) in a democratic and transparent manner. This must show a timeline and activities that support registered producers in getting organized. You do not impose your views in the development of the plan.	There is no ODP OR it was developed by the PB on its own.	There is an ODP but has no concrete timelines/activities OR the views of producers were not sufficiently heard (PB imposed its view).	There is an ODP developed together with the registered producers.	There is an ODP developed together with the registered producers AND this ODP is based on the needs assessment.	PO(s) capable of complying with SPO standards were already formed.	1	M

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
A4.1.3	Promoting Body (CP Project)	A 4.1.0.03	You explain and discuss the organizational development plan (ODP) with registered producers and update it every year.	The PB did not update the ODP AND did not present it to producers.	The PB updated the ODP BUT did not present it to producers OR the PB presented it but provided no time or opportunity for discussion.	The PB updated and presented the ODP to producers for discussion.	The PB updated and presented the ODP to producers, providing detailed verbal explanations, with sufficient time for a good understanding and discussion.	=RANK 4 AND distributed written explanations for future reference OR used participatory methods that actively encouraged discussion.	1	C
A4.1.4	Promoting Body (CP Project)	A 4.1.0.04	You support registered producers to meet the targets defined in the organizational development plan (ODP).	The PB does not provide any support.	The PB provides support but less than specified in the ODP.	The PB provides support as specified in the ODP.	The PB provides support as specified in the ODP, assuming all necessary costs itself.	= RANK 4 AND the ODP is being accomplished according to plan.	1	M

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
A4.1.5	Promoting Body (CP Project)	A 4.1.0.05	You ensure that one or more producer organizations are being established in a transparent manner.	The establishment of PO(s) has not started.	Steps have been taken but there are no PO(s) established yet.	There are PO(s) established with statutes and clear membership BUT there are no elections yet.	There are PO(s) established with statutes and clear membership AND the board has been elected BUT the PO(s) are not yet registered.	There are PO(s) established with statutes and clear membership AND the board has been elected AND the PO(s) are registered.	3	D
A4.1.6	Promoting Body (CP Project)	A 4.1.0.06	You help the producer organization formalize its internal systems for democratic participation.	The PB does not provide any support.	The PB provides support but unrelated to formalization of internal democratic systems.	The PB provides support on calling for and holding General Assemblies and proper recording of attendance and decisions.	= RANK 3 AND the PB also supports drafting internal rules / statutes and electing directors.	= RANK 4 AND the PB also helps the PO registering themselves as required by local legislation.	6	D

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
A4.1.7	Promoting Body (CP Project)	A 4.1.0.07	If the registered producers do not meet the targets outlined in the ODP, you contract an independent third party (person or organization) to support them in their organization in accordance with the ODP after three years of certification. This must be earlier if requested by producers.	The PB has not contracted an independent party when targets were not being met AND it was requested by producers.	The PB has not contracted an independent body when targets were not being met after three years of certification.	The PB has contracted an independent party when targets were not being met.	= RANK 3 AND the selection was consulted with the PEB.	=RANK 4 AND the selected party has plenty of experience in supporting producers.	1	C
A4.1.7	Promoting Body (CP Project)	A 4.1.0.08	You consult the PEB during the process of contracting the independent party.	The PB has not contracted an independent party .	The PB has not consulted the PEB OR their opinion was not taken into account.	The PB has consulted the PEB AND their opinion was taken into account.	The PB consulted the PEB AND their opinion was taken into account AND the chosen party is suitable.	The PB and the PEB went through the complete selection process together AND the chosen party is suitable.	1	C

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
A4.1.7	Promoting Body (CP Project)	A 4.1.0.09	You demonstrate that the chosen independent party has the requisite experience and skills to undertake its responsibilities.	The PB has not contracted an independent party OR the contracted party does not act independently.	The chosen independent party has never supported producers.	The chosen party has previously supported producers.	The chosen independent party has previously supported producers in organizational matters or conflict-resolution.	=RANK 3 AND the independent party's stated mission is supporting disadvantaged producers AND the independent party is specialized in conflict-resolution/mediation on behalf of small farmers.	1	C
		A 4.2	Democracy. Participation and Transparency							
A4.2.1	Promoting Body (CP Project)	A 4.2.0.01	You ensure that registered producers establish a structure called the producer executive body (PEB) that is able to make democratic and transparent decisions about Fairtrade issues, including use of the Fairtrade Premium.	There is no PEB.	The creation of a PEB has started but still not completed.	There is a PEB even though still weak and/or quite inactive.	There is an active PEB.	There is an active PEB which has been properly trained to perform its functions.	0	M

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
A4.2.1	Promoting Body (CP Project)	A 4.2.0.02	You ensure that the PEB informs you about these decisions taken by them.	There is no communication between the PEB and the PB.	The PEB communicates with the PB only sporadically and not every time a decision on the Fairtrade Premium is taken.	The PEB communicates to the PB all decisions on the Fairtrade Premium when these are taken.	The PB communicates to the PB all decisions on any Fairtrade matter when these are taken.	The PEB and the PB communicate on a frequent and regular basis regarding all Fairtrade matters.	0	C

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
A4.2.2	Promoting Body (CP Project)	A 4.2.0.03	You ensure that the PEB is democratically elected by, and represents, all the registered producers.	The elections were conducted under coercion, improper influence, or other irregularities OR the organisation provided inaccurate or misleading information regarding the electoral process OR there were no elections.	The elections held did not have enough quorum OR not all members have voting rights OR the elections were postponed by a longer time than technically reasonable.	Elections were democratic even if poorly recorded OR postponed for understandable reasons.	Elections were democratically and timely held even if they lacked certain minor formalities.	The democratic election procedure is fully regulated in the statutes or other documents and followed up.	0	M

Cocoa 3.1.17	Promoting Body (CP Project)	A 6.0.0.13	(Cocoa) (Applicable as of 1 July 2025) Your organization estimates the cost of Fairtrade compliance and the financial benefits of Fairtrade, at both an organization and average farmer level. The estimated costs and benefits per farmer are shared with existing and prospective members. You repeat this estimation at least every three years.	No estimation of costs of Fairtrade compliance and the financial benefits undertaken AND/OR estimated costs and benefits not shared with existing and prospective members AND/OR estimation not repeated every three years		Estimation of costs of Fairtrade compliance and the financial benefits undertaken AND estimated costs and benefits shared with existing and prospective members AND estimation repeated every three years			3	D
		B	Requirements Applicable to Producer Organizations and Registered Producers							
		B1	General Requirements							
		B 1.1	Certification							

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
B1.1.1	Promoting Body (CP Project)	B 1.1.0.01	You have basic knowledge of the Fairtrade concept and indicate your commitment to - participate in Fairtrade - cooperate with the promoting body. This is to be done in a way that allows you to eventually comply with the Fairtrade Standard for Small Producer Organizations.	Most registered producers do not know / do not understand Fairtrade.	Registered producers have not indicated their interest/co commitment.	Most registered producers know / understand Fairtrade AND all have indicated their commitment verbally.	Most registered producers know / understand Fairtrade AND all have indicated their commitment in writing.	The vast majority of producers know / understand Fairtrade AND all have indicated their commitment in writing.	0	C
		B2	Trade (No Requirements)							
		B3	Production							
		B 3.1	Environmental Development							
		B 3.1.1.a	Integrated Pest Management (Pest Management)							

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
B3.1.1	Promoting Body (CP Project)	B 3.1.1.01	You demonstrate that pesticides are applied based on knowledge of pests and diseases.	Most registered producers do not know relevant pests and diseases.	Most registered producers know relevant pests and diseases BUT cannot explain why particular applications were done.	80% of registered producers can explain why a particular application was done.	= RANK 3 AND at least 50% of registered producers use tools to monitor incidence of pests and diseases.	= RANK 3 AND at least 80% of registered producers use tools to monitor incidence of pests and diseases AND record pesticide application, or no pesticides are used.	6	D
		B 3.1.1.b	Proper Use and Handling of Pesticides (Pest Management) (The requirements in the following chapter are also applicable to own additional entities.)							

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
B3.1.2	Promoting Body (CP Project)	B 3.1.1.02	You and the members of your organization do not apply pesticides and other hazardous chemicals within 10 meters from ongoing human activity (housing, canteens, offices, warehouses or the like with people present). A buffer zone of at least 10 meters must be kept unless there is a barrier that effectively reduces pesticide drift. Alternatively, appropriate re-entry intervals can be applied so that people are not affected by pesticide drift.	There are no buffer zones or no barriers Or no re-entry times defined or potential pesticides reaching sites of ongoing human activity.	On average buffers are narrower than 10m or re-entry intervals are not as per guidelines prescribed on Pesticides or the producers cannot demonstrate that the buffer zones effectively stop potential pesticide drift into areas of ongoing human activity	Buffer strips of 10m on average, re-entry times well defined & with a dense barrier to prevent potential pesticides reaching sites of ongoing human activity.	RANK 3 AND the organisation carried out awareness activities.	= RANK 4 AND there is an Internal Control System in place that works well and can guarantee this at producer level.	1	C

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
B3.1.3	Promoting Body (CP Project)	B 3.1.1.03	If aerial spraying of pesticides or other hazardous chemicals is carried out, you do not spray above and around places with ongoing human activity or above and around water sources.	Rivers, water bodies, houses and other sensitive areas are generally not avoided.	Rivers, water bodies, houses and other sensitive areas are identified in maps, communicated in advance to pilots. However the instructions were not respected AND the producers took no action.	Rivers, water bodies, houses and other sensitive areas are identified in maps and communicated in advance to pilots. However the instructions were not respected BUT the producers changed pilot or took other corrective measures such as better marking.	Rivers, water bodies, houses and other sensitive areas are identified in maps, communicated in advance to pilots and are always avoided.	= RANK 4 AND Producers warn local population of spraying times.	1	C

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
B3.1.3	Promoting Body (CP Project)	B 3.1.1.04	If aerial spraying is outsourced, you ensure that they do not spray above and around places with ongoing human activity or above and around water sources.	Rivers, water bodies, houses and other sensitive areas are generally not avoided.	Rivers, water bodies, houses and other sensitive areas are identified in maps, communicated in advance to subcontractors. However the instructions were not respected AND the producers took no action.	Rivers, water bodies, houses and other sensitive areas are identified in maps and communicated in advance to subcontractors. However the instructions were not respected BUT the producers changed subcontract or or took other corrective measures such as better marking.	Rivers, water bodies, houses and other sensitive areas are identified in maps, communicated in advance to subcontractors and are always avoided.	= RANK 4 AND Producers get information from subcontract or and warn local population of spraying times.	1	C

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
B3.1.4	Promoting Body (CP Project)	B 3.1.1.05	You store pesticides and other hazardous chemicals in a way that minimizes risks, especially so they cannot be reached by children.	Store areas controlled by registered producers are not locked and due to their locations represent a high risk of accidents.	Store areas controlled by registered producers are not locked.	Store areas controlled by registered producers are locked and not accessible to any child.	Store areas controlled by registered producers are locked and not accessible to any child AND only accessible to trained people.	There is an Internal Control System in place that works well and can guarantee this at producer level.	3	C
B3.1.5	Promoting Body (CP Project)	B 3.1.1.06	All pesticides and hazardous chemicals are clearly labelled.	Most pesticides stored by registered producers are not labelled.	Some pesticides are not labelled, even if the producer can identify content.	Unlabelled pesticides are not found.	Unlabelled pesticides are not found AND the PB took some measures to further guarantee compliance (for example: awareness raising, sample internal inspections, peer-review).	There is an Internal Control System in place that works well and can guarantee this at producer level, or no pesticides or hazardous chemicals are used.	3	D

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
B3.1.6	Promoting Body (CP Project)	B 3.1.1.07	You have equipment to handle accidents and spills in the areas where you prepare or mix pesticides and other hazardous chemicals, so these do not seep into soil or water. You must plan the spraying in such a way as to have no or very little spray solution left.	Most registered producers do not have equipment to handle accidents AND/OR considerable amounts of spray solution are left .	Registered producers have equipment to handle accidents in store areas but not where pesticides are mixed OR if spills happen contaminated soil is disposed in a way that poses risks to people and the environment.	Registered producers have/carry equipment to handle accidents to all places where pesticides are mixed or prepared AND if spills happen contaminated soil is disposed in a way that minimizes risks to people and the environment AND no considerable amounts of spray solution are left (and stored in spraying equipment, etc or	= RANK 3 AND the PB took some measures to further guarantee compliance (for example: awareness raising, sample internal inspections, peer-review).	There is an Internal Control System in place that works well and can guarantee this at producer level.	6	D

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
						disposed).				
B3.1.7	Promoting Body (CP Project)	B 3.1.1.08	You do not reuse pesticide containers to store or transport food or water.	Reusing pesticide containers for food/ product is common practice.	No evidence of registered producers reusing pesticide containers for food/product but interviewed producers do not know the dangers.	There are no indications of registered producers reusing pesticide containers AND interviewed producers know the dangers.	= RANK 3 AND PB carried out awareness activities.	= RANK 4 AND the PB provides a safe disposal system for registered producers.	0	M
B3.1.8	Promoting Body (CP Project)	B 3.1.1.09	You triple rinse, puncture and store empty containers properly. All equipment that has been in contact with pesticides must be cleaned and stored properly.	Registered producers do not follow these practices, dirty equipment or dirty/non-punctured empty containers can be found.	= RANK 2 BUT the PB carried out awareness activities.	No dirty equipment or dirty/non-punctured empty containers are found.	= RANK 3 AND the PB carried out awareness activities.	There is an Internal Control System in place that works well and can guarantee this at producer level, or no pesticides or hazardous chemicals are used.	3	D

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
B3.1.9	Promoting Body (CP Project)	B 3.1.1.10	You do not use any of the materials on the Fairtrade International Hazardous Materials List found in Annex 2 on Fairtrade crops and the fields where they are grown. You only use synthetic materials that are officially registered and permitted for the crop/product in the country of use.	The PB or PO actively promotes use of forbidden materials OR use was found in > 5% of sampled producers.	Use was found in < 5% of sampled producers BUT the PB/PO has not developed a procedure to ensure that members do not use on the Fairtrade crops any material that appears on the Fairtrade International Prohibited Materials List.	Use was found in < 5% of sampled producers AND the PB/PO has developed a procedure to ensure that members do not use on the Fairtrade crops any material that appears on the Fairtrade International Prohibited Materials List.	No use was detected in audit AND the PB/PO has developed a procedure to ensure that producers do not use on the Fairtrade crops any material that appears on the Fairtrade International Prohibited Materials List.	There is an Internal Control System in place that works well and can guarantee this at producer level.	0	M
		B 3.1.1.c	Choice of Pesticides Used (Pest Management) (The requirements in the following chapter are also applicable to own additional entities.)							

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
B3.1.9	Promoting Body (CP Project)	B 3.1.1.11	Pesticides prohibited in the HML Part 1 (Red List) are clearly marked "Not for use on Fairtrade crops".	No		Yes			0	C
B3.1.10	Promoting Body (CP Project)	B 3.1.1.12	(Only applicable in the case of use of material on the Fairtrade International Red List that has been approved by FLOCERT as exception before 31/12/2017) You use these materials only if you have previously requested the use to the certification body and received permission.	No		Yes			0	C
B3.1.10	Promoting Body (CP Project)	B 3.1.1.13	(Only applicable in the case of use of material on the Fairtrade International Red List that has been approved by FLOCERT under as exceptional conditions before 31/12/2017) You demonstrate that the use of these materials is minimized and undertaken only in case of definite need, used under appropriate health and safety conditions and using advanced techniques. Evidence of need must be demonstrated by the producer.	No OR the PB did not apply for a derogation or the certification body did not grant the exception.	Derogation granted, but practice does not match documentary evidence previously provided to FLOCERT.	Derogation granted and practice meets requirements.	= RANK 3 AND clear proof that all measures have been implemented and are effective.	= RANK 4 and measures beyond the requirements have been implemented.	0	C
B3.1.10	Promoting Body (CP Project)	B 3.1.1.14	An appropriate plan and record to substitute these materials must be developed and operated.	There is no plan.	A plan and records exist but it lacks details on how to substitute the materials OR the plan is not operational.	Records and plans for substituting materials are operational but still lack some details for successful long-term substitution.	Records and plans for substitution of materials are fully operational and followed.	= RANK 4 AND records are fully up to date.	0	C

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
B3.1.10	Promoting Body (CP Project)	B 3.1.1.16	You and the members of your organization use materials in the Orange List on Fairtrade crops and the fields where they are grown only under the following conditions: a) You fulfill the specific conditions of use specified in Part 2 of the HML. b) The material is only used i) as part of avoiding pesticide resistance buildup in pests, ii) in rotation with less harmful pesticides, iii) as part of IPM that includes non-chemical control measures. c) You have developed and implemented a plan for reducing/phasing out the use of the materials. The plan includes information on - the type of material (technical name/active ingredient (a.i.), formulation (% of a.i.), commercial name), - the quantity used (spray concentration (a.i. /ha or in % or ppm etc.) and total consumed a.i./ha/year), - actions taken for reducing/phasing out the material including details of other non-chemical controls which are part of the IPM strategy.	None of the conditions is fulfilled.	Not all conditions of use are fulfilled.	All conditions for use are fulfilled.		There is a documented QMS to ensure that the conditions are met AND the phase out plan is effectively implemented.	0	C
		B 3.1.2	Waste							

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
B3.1.11	Promoting Body (CP Project)	B 3.1.2.01	You have designated areas for the storage and disposal of hazardous waste.	Registered producers have not designated storage areas AND keep hazardous waste.	Registered producers have not designated storage areas BUT no hazardous waste is found during the audit.	Registered producers have designated storage areas on farms or at central areas where risks are minimized.	The PB or PO provides an alternative storage where risks are minimized.	The PB or PO eliminates or has access to resources which eliminate hazardous waste permanently without burning.	3	D
B3.1.11	Promoting Body (CP Project)	B 3.1.2.02	In the absence of appropriate disposal facilities, small amounts of hazardous farm waste can be burned in a well-ventilated area away from people, animals or crops. You may only burn hazardous waste if it is allowed by local regulation and all safety recommendations are followed.	Hazardous waste is burned without being allowed by regulation.	Burning of hazardous waste is allowed by regulation BUT registered producers do not follow good practices.	Hazardous waste is not burned OR burned only if allowed by regulation and following good practices.	= RANK 3 AND the PB or PO provides an alternative storage.	=RANK 3 AND the PB or PO eliminates or has access to resources which eliminate hazardous waste permanently without burning.	3	D
		B 3.1.3	GMO							

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
B3.1.12	Promoting Body (CP Project)	B 3.1.3.01	You do not intentionally use genetically engineered seed or planting stock for Fairtrade crop(s).	More than 10 % of Fairtrade crops is GMO.	5-10% of Fairtrade crops is GMO.	There is no system but no contamination is detected (mistakes allowed up to 5 % of crop).	= RANK 3 AND the PB is compliant with Standard requirement A3.2.21	= Rank 4 AND there is an Internal Control System in place that works well and can guarantee this at producer level.	0	C
		B 3.1.4	Biodiversity							
B3.1.13	Promoting Body (CP Project)	B 3.1.4.01	From the date of application for certification, you avoid negative impacts on: -protected areas -areas with high conservation values within or outside the farm or production areas.	Protected or HCV areas have been totally/partly destroyed by registered producers (since application for certification)	Registered producers are not aware of local protected/H CV areas.	The PB informed registered producers of local protected/H CV areas and there are no indications of negative impacts.	The PB effectively controls activities of registered producers in protected areas.	= RANK 4 AND the conservation of local protected/H CV areas is actively promoted.	0	C

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
B3.1.13	Promoting Body (CP Project)	B 3.1.4.02	You comply with national legislation relating to agricultural land use, for the areas that are used or converted to production of the Fairtrade crop.	Protected or HCV areas have been converted to production of Fairtrade crop.	Areas converted to production of Fairtrade crop are otherwise illegally used.	There are no indications that conversion was illegal OR there is no new land converted to production of Fairtrade crop.	There is evidence of the legal conversion to production of Fairtrade crop.	There is evidence of the legal use and legal conversion to production of Fairtrade crop.	0	C
B3.1.14	Promoting Body (CP Project)	B 3.1.4.03	You maintain buffer zones around: 1. water bodies 2. watershed recharge areas and 3. Between production areas and areas of high conservation value, either protected or not. Pesticides, hazardous chemicals and fertilizers must not be applied in buffer zones.	No distance is maintained around water bodies/watershed recharge areas or protected/HCV areas during application of pesticides or fertilizers.	Distance is maintained around water bodies/watershed recharge areas or protected/HCV areas BUT not enough to avoid any potential drift of application of pesticides or fertilizers.	Enough distance is maintained around water bodies/watershed recharge areas or protected/HCV areas so to avoid any drift of application of pesticides or fertilizers.	There are uncultivated buffer zones around water bodies/watershed recharge areas or protected/HCV areas AND around farms (or cluster of farms).	= RANK 4 AND buffer zones are restored with natural vegetation and (if feasible) connected.	6	D

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
B3.1.15	Promoting Body (CP Project)	B 3.1.4.04	If you carry out wild harvesting of Fairtrade products from uncultivated areas, you assure the sustainability and survivability of the collected species in its native habitat.	Wild harvesting of Fairtrade crop is knowingly depleting the species.	Effect on the species is unknown BUT no signs of depletion.	Wild harvesting of Fairtrade crop respects the biological cycle of the species (this knowledge can come from tradition) and no signs of depletion.	= RANK 3 AND the PB carried out awareness raising activities.	= RANK 4 AND there is an Internal Control System that covers all registered producers and that controls volumes and times of harvesting.	1	C

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
Cocoa 3.4.1	Promoting Body (CP Project)	B 3.1.4.05	(Cocoa) There has been no deforestation or degradation in primary or secondary forests, protected areas and areas of High Conservation Value or High Carbon Storage to convert land into agricultural production area since 31st December 2018. Production does not occur in officially designated buffer zones, except where it complies with applicable law.	There has been deforestation since 31st December 2018 caused by members.		There are no open deforestation alerts OR the alerts were checked during the audit and were not confirmed AND no illegal production in buffer zones found.			0	C

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
Cocoa 3.4.3	Promoting Body (CP Project)	B 3.1.4.07	(Cocoa) (Applies if you identified a risk of deforestation) You use the results of your human rights/environmental risk assessment and your risk monitoring of deforestation, to create a plan to prevent and mitigate any deforestation and degradation of forest, in order to conserve and restore forest and vegetation. The plan entails: • Raising awareness amongst members on identified risk areas and activities or production practices that have negative impacts. • Promoting the implementation of production practices that have a positive impact. - As of Jan 2024: you draft a Deforestation Prevention and Mitigation Plan. - As of Jan 2025: you start to implement your Deforestation Prevention and Mitigation Plan. - As of Jan 2026: you fully implement your Deforestation Prevention and Mitigation Plan.	The organisation doesn't comply with what is defined in the criterion text (staged approach)		The organisation complies with what is defined in the criterion text (staged approach)		The organisation is already compliant with the next applicable compliance stage.	1	C

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
Cocoa 3.4.2	Promoting Body (CP Project)	B 3.1.4.06	(Cocoa) You assess and monitor the risk of deforestation, and degradation in primary or secondary forests, protected areas and areas of High Conservation Value or High Carbon Storage, when conducting your human rights and environmental risk assessment.	Risk of deforestation and degradation in primary or secondary forests, protected areas and areas in High Conservation Value or High Carbon Storage is not considered in the risk assessment, neither alerts previously triggered by the monitoring report from Fairtrade.		Risk of deforestation and degradation in primary or secondary forests, protected areas and areas in High Conservation Value or High Carbon Storage is considered in the risk assessment, including alerts previously triggered by the monitoring report from Fairtrade.		RANK 3 AND the deforestation monitoring report from Fairtrade International is used in the risk assessment to identify the high-risk farm plots that need to be polygon mapped for the next year	1	C

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
Cocoa 3.4.7	Promoting Body (CP Project)	B 3.1.4.08	(Cocoa) (As of 1 January 2024, applicable only in Africa and Asia) You report the following data on Deforestation Prevention to Fairtrade International every year: - available geolocation data of member cocoa plots You present the data in the templates and formats provided (FairInsight online platform).	No data is reported.	Data is reported annually on the FairInsight platform, BUT is incorrect (e.g., polygons are not reported for plots larger than 4 hectares) AND/OR the corrections indicated by Fairtrade International in the geolocation data validation form have not been made	Data is annually reported in the FairInsight platform, AND is correct (e.g., polygons are reported for plots larger than 4 hectares) AND the organisation has received a geolocation data validation form from Fairtrade International not requesting any corrections			1	C

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
Cocoa 3.4.7	Promoting Body (CP Project)	B 3.1.4.09	(Cocoa) (As of 1 January 2024, applicable only in Africa and Asia) You report the following data on Deforestation Prevention to Fairtrade International every year: - Type of support received from traders during the past year, including its estimated monetary value, to prevent and mitigate any deforestation and degradation of forest You present the data in the templates and formats provided (FairInsight online platform).	No data is reported.		Data is reported annually AND a copy of the confirmation page is kept as proof of annual reporting as per the interpretation note from Fairtrade International.			1	C

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
Cocoa 3.4.5	Promoting Body (CP Project)	B 3.1.4.10	(Cocoa) (As of 1 January 2024, applicable only in Africa and Asia) Geolocation data is available for 100% of your member and farm operator plots cultivating cocoa. It is in the form of: - GPS polygons or location points, for plots smaller than four hectares - GPS polygons, for plots over four hectares - GPS polygons for plots of any size if there is evidence of deforestation within 500 meters of plot boundary and/or if plot boundary is within 200 meters of a protected area. You identify and prioritize for which plots this should be in the form of GPS polygons based upon area risk of deforestation and adopt a phased approach. You use the data to further inform your procedures to prevent deforestation.	No data is available	Data is available BUT it is not 100% complete and/or correct for all members on the member list.	Data is available for 100% of the members AND it is used to inform procedures to prevent deforestation			0	C
		B 3.2	Labour Conditions							
		B 3.2.1	Freedom from Discrimination							

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
B3.2.1	Promoting Body (CP Project)	B 3.2.1.01	The producer organization and you do not discriminate on the basis of race, colour, gender, sexual orientation, disability, marital status, age, HIV/AIDS status, religion, political opinion, membership of unions or other workers' representative bodies, national extraction or social origin when it comes to recruitment, promotion, access to training, remuneration, allocation of work, termination of employment, retirement or other activities.	There are substantial indications of discrimination on recruitment and remuneration.	There are substantial indications of discrimination on promotion and access to training.	There are no records or rules but no indications of discriminatory practices.	There is a written equal opportunities policy made known to all registered producers and workers.	There is an equal opportunities policy for recruitment, remuneration, promotion and training and applied in practice with records that show reasons for acceptance, dismissals and promotion of workers.	0	M
B3.2.2	Promoting Body (CP Project)	B 3.2.1.02	During the recruitment of workers you and the producer organization do not test for pregnancy, HIV or genetic disorders.	Tests are requested.	No tests but questions are asked that lead to discrimination in recruitment.	No policy but no indications of test or questions during recruitment.	There is a clear policy forbidding this.	There is a clear policy forbidding this and the ICS controls this at producer level.	0	C

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
B3.2.3	Promoting Body (CP Project)	B 3.2.1.03	The producer organization and you do not engage in, support or tolerate the use of corporal punishment, mental or physical coercion or verbal abuse.	There are indications of this being common amongst registered producers as employers or at PB or PO as employer.	There are indications of this happening on rare occasions but the PB took no actions.	The auditor found no indication (through workers' and employers interviews, and local knowledge) that this is present.	There is a written policy made known to members and workers.	= RANK 4 AND the ICS controls this at producer level.	0	C
B3.2.4	Promoting Body (CP Project)	B 3.2.1.04	The producer organization and you do not engage in, support or tolerate behaviour, including gestures, language, and physical contact, that is sexually intimidating, abusive or exploitative.	There are indications of this being common amongst registered producers as employers or at PB or PO as employer.	There are indications of this happening on rare occasions but the PB took no actions.	The auditor found no indication (through workers' and employers interviews, and local knowledge) that this is present.	There is a written policy made known to members and workers.	= RANK 4 AND the ICS controls this at producer level.	0	C
		B 3.2.2	Freedom of Labour (The requirements in the following chapter are also applicable to own additional entities.)							

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
B3.2.5	Promoting Body (CP Project)	B 3.2.2.01	You and the producer organization do not have forced labour, bonded or involuntary prison labour.	There are indications of this being common amongst members as employers or at organisation as employer OR due notice period is excessive (> 3 months).	There are indications of this happening on rare occasions but the organisation took no actions.	The auditor found no indication (through workers' and employers interviews, and local knowledge) that this is present.	RANK 3 AND there is a written policy approved by the GA and made known to members and workers.	RANK 4 AND the ICS controls this at producer level.	0	C
B3.2.6	Promoting Body (CP Project)	B 3.2.2.02	The producer organization and you do not make the employment of a worker, or an offer of housing, conditional on the employment of their spouse. Spouses have the right to work elsewhere.	Employers oblige family members to work (directly or via benefits such as housing).	Employers prioritise housing for families with more than one member employed by them.	There are no indications of this taken place.		Employers make all workers aware (especially those living in farm) about their right to work elsewhere.	0	C
