

FLOCERT GmbH

Public Compliance Criteria List - Small Producers' Organisations

Compliance Criteria are established by FLOCERT to translate requirements of the Fairtrade Standards and FLOCERT requirements into verifiable control points that are evaluated during the certification process to determine compliance with the Fairtrade Standards. Non-conformity with a Compliance Criterion is considered non-conformity with the respective standard requirement. Each Compliance Criterion is linked to a specific timeline indicating when it needs to be fulfilled.

There are four types of Compliance Criteria:

Core (C): reflect Fairtrade principles and must be complied with.

Major (M): reflect key Fairtrade principles where non-compliance represents a major risk to the Fairtrade system. Non-conformity with a major compliance criterion may lead to certification sanctions.

Development (D): refer to the continuous improvement that certified organisations must demonstrate. Compliance with development criteria is verified against an average score.

Follow-up (F): criteria which are only applicable to follow-up audits.

Instead of a plain yes/no-approach there are 5 levels of compliance, called ranks. Rank 1 and 2 indicate non-compliance whereas ranks 3 to 5 indicate compliance with the Fairtrade Standards. The FLOCERT Public Compliance Criteria List - Small Producers' Organisations - is based on the Fairtrade Standard for Small Producer Organisations (version dated April 3rd, 2019) and the Fairtrade Product Standards published by Fairtrade International.

This version of the Compliance Criteria supersedes all previous versions. The Compliance Criteria are published in several languages. In the case of an interpretation dispute in any of the published languages, the English version of the Compliance Criteria prevails.

1.2.1, 1.2.2	2nd grade, 3rd grade	1.2.0.13	You are an organization of small-scale producers. At least 66% of the producers of each of the member organisations which are included in the Fairtrade certification are Small-scale Producers that comply with the following requirements: - All small-scale farms are operated and managed by members and their families. This means that members and their families are directly involved in farming activities (unless not possible due to age, incapacity etc.) - Your members are considered small-scale producers if they comply with the following criteria: • Members do not hire workers on a continuous basis and they work on their own-account. • Farm work is mostly done by members and their families. In particular circumstances when the farmer is not able to carry out work on the farm (e.g. due to age, incapacity) and the work of the family members is not sufficient, hiring permanent labour is allowed. - If your members produce cane sugar, prepared and preserved fruits and vegetables, fresh fruit, vegetables, or tea, they are allowed to hire workers on a continuous basis to support the farm work. In this case they are considered small-scale producers if they comply with the specific product indicators on land size defined by Fairtrade International (see link in interpretation)	The information available does not allow determining small-scale producer status of members.	Less than 66% of members are small-scale producers.	At least 66% of members are small-scale producers.	RANK 3 AND the information easily available in the member lists.	RANK 4 AND the small farmer requirements are clearly mentioned in the member inclusion process.	0	M

Cocoa 3.2.3	1st grade, 2nd grade, 3rd grade	3.1.0.23	(Cocoa) (As of 1 July 2023, applicable only in Africa and Asia; staged implementation as per below) (As of 1 July 2024, applicable also in Latin America / Caribbean) You conduct a human rights and environmental risk assessment at least every 3 years. 1. Map all the risks and challenges in your country and field of production, considering available external data and research. 2. Through engagement with farmers, farm workers and others, prioritize and further assess at least three challenges that are most salient to your operations. Include child labour and forced labour in your priorities if Fairtrade or another reliable source has indicated these as a risk in your country and areas of production. 3. Identify and focus on the most vulnerable groups of people that are or could be impacted because of the risks and challenges identified. Africa & Asia only: - As of July 2023: You start the risk mapping process (a draft is available) and identify the resources you will use to inform your risk assessment. - As of January 2024: You map all the risks in your country and field of production using the resources identified previously. You prioritise the three most salient risks to your operation. - As of January 2025: You engage with farmers, farm workers and other relevant parties. You	The organisation does not comply with what is defined in the criterion text (staged approach)		The organisation complies with what is defined in the criterion text (staged approach)		The organisation is already compliant with the next applicable compliance stage.	1	C

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
3.2.21	1st grade, 2nd grade, 3rd grade	3.2.3.02	You have trained the members of your organisation with identified risk of soil erosion or already eroded land on practices that reduce and/or prevent soil erosion.	Organisation did not carry out any training OR the organisation failed to identify existing soil erosion problems.	Less than 50% of members with risk erosion have been trained OR content/quality of training was insufficient.	At least 50% of members with risk of erosion have been trained AND content of training was sufficient.	At least 80% of members with risk of erosion have been trained AND content of training was sufficient AND training materials are clear and correct.	=RANK 4 AND some preventive and corrective measures are ongoing.	6	D
		3.2.3.b	Handling Fertilizers (Soil and Water)							
3.2.22	1st grade, 2nd grade, 3rd grade	3.2.3.03	You have trained your members on appropriate use of fertilizers. The training is in line with the standard requirements.	Organisation did not carry out any training.	Less than 50% of members have been trained OR content/quality of training was insufficient.	At least 50% of members have been trained AND content of training was sufficient.	At least 80% of members have been trained AND content of training was sufficient AND training materials are clear and correct.	=RANK 4 AND some preventive and corrective measures are implemented.	6	D
		3.2.3.c	Soil Fertility (Soil and Water)							

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
3.2.23	1st grade, 2nd grade, 3rd grade	3.2.3.04	Your members have implemented measures to improve soil fertility.	Organisation did not implement any measures and cannot explain practices.	Organisation did not implement any measures but can explain to auditor the practices in this regard.	The organisation has implemented measures to improve soil fertility.	Rank 3 AND measures implemented were from internal evaluation of its practices.	RANK 4 AND the organisation benefits from advice from local experts such as authorities, universities or NGOs.	3	D
		3.2.3.d	Sustainable Water Sources (Soil and Water)							
3.2.25	1st grade, 2nd grade, 3rd grade	3.2.3.06	You are informed about the situation of the water sources in your area. In case local environmental authorities or other entities consider your water sources as being depleted, or in a critical situation, you have to engage in a dialogue in order to identify possible ways to be involved in research or solution finding.	The organisation does not know if water sources are sustainable and there is indeed a depletion problem.	The organisation does not know if water sources are sustainable (and depletion problem is not confirmed) OR sources are considered unsustainable and no action was taken.	The organisation can explain if sources of water are sustainable AND if there is a depletion problem it has contacted relevant stakeholders.	= RANK 3 AND the organisation has drafted a plan to improve sustainability of water sources.	= RANK 4 AND the organisation has a drafted plan to improve sustainability of water sources in coordination/cooperation with the community and relevant authorities.	6	D

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
		3.2.3.e	Sustainable Water Use (Soil and Water) (The requirements in the following chapter are also applicable to own additional entities.)							
3.2.26	1st grade, 2nd grade, 3rd grade	3.2.3.07	You have trained your members on measures to use water efficiently including the following topics: a) Estimating how much water is needed to irrigate and/or process Fairtrade crops b) Measuring (or estimating) how much water is extracted from the source c) Water quality for irrigation or processing d) Measuring how much water is used for irrigation and/or processing e) Providing maintenance to the water distribution system f) Adopting as applicable, methods to recirculate, reuse and/or recycle water.	Organisation did not carry out any training.	Less than 50% of members have been trained OR content/quality of training was insufficient.	At least 50% of members have been trained AND content of training was sufficient.	At least 80% of members have been trained AND content of training was sufficient AND training materials are clear and correct AND the training included an assessment of water quality.	=RANK 4 AND some procedures for efficient use of water are implemented.	3	D

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
3.2.28	1st grade, 2nd grade, 3rd grade	3.2.3.08	You handle waste water from central processing facilities in a manner that does not have a negative impact on water quality, soil health or food safety.	Quality of water has not been analysed OR no measures for adequate handling are in place.	Quality of water has been analysed BUT quality is below the levels required by legislation OR organisation does not know quality levels required by legislation.	Quality of water has been analysed AND quality is equal or above the levels required by legislation OR, if quality is below required levels, adequate measures have been implemented.	= RANK 3 AND analysis is made regularly.	= RANK 4 AND the organisation has a plan for further improving quality of water.	6	D

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
3.2.29	1st grade, 2nd grade, 3rd grade	3.2.3.09	You have trained your members about waste water and the health risks it bears as well as prevention of risks and treatment methods of waste water and their implementation.	Organisation did not carry out any training.	Less than 50% of members have been trained OR content/quality of training was insufficient.	At least 50% of members have been trained AND content of training was sufficient.	At least 80% of members have been trained AND content of training was sufficient AND training materials are clear and correct.	RANK 4 AND some measures for waste water treatment / improvement of sanitation conditions are implemented.	6	D
3.2.20	1st grade, 2nd grade, 3rd grade	3.2.3.10	You have identified land at risk of soil erosion and already eroded land in the fields where your members plant Fairtrade crops.	Important erosion problems exist and the organisation is unaware.	Mild erosion problems exist and the organisation is unaware OR potential (and likely) problems cannot be identified.	The organisation documented (in writing or maps) existing and potential general problems in the area.	Rank 3 AND developed preventive measures on reduction of soil erosion or soil restorative measures	The organisation inspected all farms and documented in writing existing and potential problems AND implemented preventive measures.	3	C

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
3.2.24	1st grade, 2nd grade, 3rd grade	3.2.3.11	You have identified and listed all sources of water for irrigation and processing of Fairtrade crops.	The organisation does not know where irrigation water and water used for processing comes from.	The organisation only knows some of the sources OR knows all sources but this is not reflected in writing.	The organisation has a map or written list of all sources of water for irrigation and processing with basic information (river, seasonal river, artificial dam, underground well, rain water collector, etc).	RANK 3 AND with identified irrigation method: surface (basin, furrow, sprinkler, drip, etc). AND the list of water sources includes records or dates when these sources are available.	RANK 4 AND the organisation can prove that the use of all sources is authorised.	3	C
3.2.27	1st grade, 2nd grade, 3rd grade	3.2.3.12	Your members follow practices that improve water resources management.	Members do not follow any water improvement practices	RANK 1 BUT the organisation carried out awareness activities.	Members apply at least one sustainable practice of efficient water management.	RANK 3 AND the organization carried out awareness activities.	Sustainable practices are evaluated and implemented on a regular basis.	3	D

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
		3.2.4	Waste (The requirements in the following chapter are also applicable to own additional entities.)							
3.2.38	1st grade, 2nd grade, 3rd grade	3.2.4.01	Your members keep their farms free of hazardous waste.	Hazardous waste is found on members' farms outside designated storage areas.	Hazardous waste is found on members' farms outside designated storage areas BUT the organisation carried out awareness activities.	No hazardous waste is found on farms (except on designated storage areas).	No hazardous waste is found on farms (except on designated storage areas) AND the organisation carried out awareness activities.	= RANK 4 AND there is an (organic) Internal Management System in place that works well.	1	C
3.2.39	1st grade, 2nd grade, 3rd grade	3.2.4.02	You and the members of your organisation have designated areas for the disposal / storage of hazardous waste.	Members have not designated storage areas AND keep hazardous waste.	Members have not designated storage areas BUT no hazardous waste is found during the audit.	Members have designated storage areas on farms or at central areas where risk is minimized.	Organisation provides an alternative storage that minimizes risks.	Organisation eliminates or has access to resources which eliminate hazardous waste permanently without burning.	3	D

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
3.2.39	1st grade, 2nd grade, 3rd grade	3.2.4.03	You and the members of your organisation only burn hazardous waste if it is allowed by local regulation and all safety recommendations are followed.	Hazardous waste is burned without being allowed by regulation.	Burning of hazardous waste is allowed by regulation BUT members do not follow good practices.	Hazardous waste is not burned OR burned only if allowed by regulation and following good practices.	= RANK 3 AND the organisation provides an alternative storage.	=RANK 3 AND the organisation eliminates or has access to resources which eliminate hazardous waste permanently without burning.	3	D
3.2.40	1st grade, 2nd grade, 3rd grade	3.2.4.04	You have educated your members on re-using organic waste through the implementation of practices that allow nutrients to be recycled. The organic waste is only burned if required by applicable legislation.	Organisation did not carry out any information activity OR organic waste is burned when not required by legislation.	Less than 50% of members have been informed OR content/quality of information was insufficient.	At least 50% of members have been informed AND content of information was sufficient.	At least 80% of members have been informed AND content of information was sufficient AND there are informative materials.	=RANK 4 AND some measures for re-using organic waste are implemented.	3	D
		3.2.5	GMO							

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
3.2.41	1st grade, 2nd grade, 3rd grade	3.2.5.01	You and your members do not intentionally use genetically engineered seed or planting stock for Fairtrade crop(s).	More than 10 % of Fairtrade crops is GMO OR organisation knowingly uses GMO seeds/planting stock.	Use of GMO is very likely to happen AND the organisation took no actions OR 5-10% of Fairtrade crops is GMO.	There is no system but no contamination is detected (mistakes allowed up to 5 % of crop).	= RANK 3 AND the organisation is compliant with Standard requirement 3.2.32.	= RANK 4 AND there is an (organic) Internal Management System in place that works well.	0	C
3.2.41	1st grade, 2nd grade, 3rd grade	3.2.5.02	You have implemented practices to avoid GM contamination in seed stocks.	Known sources are not free from contamination BUT the organisation did not implement any measure.	Organisation does not know where seeds/plants are obtained OR most members are unaware of local risks.	Organisation generally knows where members obtain seeds/plants and sources are free from contamination AND most interviewed members could identify the local risks.	Organisation has prepared awareness raising programmes OR offers members the tools to avoid contamination.	Organisation has prepared awareness raising programmes AND offers members the tools to avoid contamination.	0	C
		3.2.6	Biodiversity							

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
3.2.30	1st grade, 2nd grade, 3rd grade	3.2.6.01	Your members avoid negative impacts on protected areas and in areas with high conservation values within or outside the farm or production areas from the date of application to certification.	Protected or HCV areas have been totally/partly destroyed by members/organisation (since application for certification)	Members are not aware of local protected/HCV areas.	Organisation informed members of local protected/HCV areas and there are no indications of negative impacts.	Organisation effectively controls activities of members in protected areas.	= RANK 4 AND the organisation actively promotes the conservation of local protected/HCV areas.	0	C
3.2.30	1st grade, 2nd grade, 3rd grade	3.2.6.02	The areas that are used or converted to production of the Fairtrade crop comply with national legislation in relation to agricultural land use.	Protected or HCV areas have been converted to production of Fairtrade crop.	Areas converted to production of Fairtrade crop are otherwise illegally used.	There are no indications that conversion was illegal OR there is no new land converted to production of Fairtrade crop.	The organisation has evidence of the legal conversion to production of Fairtrade crop.	The organisation has evidence of the legal use and legal conversion to production of Fairtrade crop.	0	C

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
3.2.33	1st grade, 2nd grade, 3rd grade	3.2.6.03	You and your members take measures to protect and enhance biodiversity.	Organisation did not implement any measures and cannot explain practices.	Organisation did not implement any measures but can explain to auditor the practices in this regard.	The organisation implemented measures to protect and enhance biodiversity.	Organisation evaluated and quantified internally its practices, implemented them and prepared a report.	RANK 4 AND the organisation benefits from advice from local experts such as authorities, universities or NGOs OR updates the report adding new practices.	6	D

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
3.2.34	1st grade, 2nd grade, 3rd grade	3.2.6.04	You and the members of your organisation have maintained buffer zones around water bodies and watershed recharge areas and between production areas and areas of high conservation value, either protected or not. Pesticides, other hazardous chemicals and fertilizers are not applied in buffer zones. Ecological corridors are protected or restored with natural vegetation.	No distance is maintained around water bodies/watershed recharge areas or protected/HCV areas during application of pesticides or fertilizers.	Distance is maintained around water bodies/watershed recharge areas or protected/HCV areas BUT not enough to avoid any potential drift of application of pesticides or fertilizers.	Enough distance is maintained around water bodies/watershed recharge areas or protected/HCV areas so to avoid any drift of application of pesticides or fertilizers.	There are uncultivated buffer zones around water bodies/watershed recharge areas or protected/HCV areas AND around farms (or cluster of farms).	= RANK 4 AND buffer zones are restored with natural vegetation and (if feasible) connected.	6	D

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
3.2.35	1st grade, 2nd grade, 3rd grade	3.2.6.05	You and the members of your organisation that carry out wild harvesting of Fairtrade products from uncultivated areas assure the sustainability and survivability of the collected species in its native habitat.	Wild harvesting of Fairtrade crop is knowingly depleting the species.	Effect on the species is unknown BUT no signs of depletion.	Wild harvesting of Fairtrade crop respects the biological cycle of the species (this knowledge can come from tradition) and no signs of depletion.	= RANK 3 AND the organisation carried out awareness raising activities.	= RANK 4 AND there is an Internal Management System that covers all members and that controls volumes and times of harvesting.	1	C
3.2.36	1st grade, 2nd grade, 3rd grade	3.2.6.06	You have informed your members so that no collection or hunting of rare or threatened species takes place.	Organisation did not carry out any information activity.	Less than 50% of members have been informed OR content/quality of information was insufficient.	At least 50% of members have been informed AND content of information was sufficient.	At least 80% of members have been informed AND content of information was sufficient AND there are informative materials.	=RANK 4 AND no collection or hunting of rare and threatened species takes place.	3	D

3.3.17	1st grade, 2nd grade, 3rd grade	3.3.4.11	(Only applicable for organizations and/ or individual members with more than 10 workers that are present for one month or more during a year; or fewer workers where the local law has defined a lower number) You have provided training to workers during paid working time for improving their participation and representation.	Training was not provided.	Training was provided but not during paid working time.	At least one training was provided within paid working time and the content is correct.	= RANK 3 AND there is an ongoing training plan.	= RANK 4 AND workers are consulted on the topics to be covered.	6	D
		3.3.5	Conditions of Employment (The requirements in the following chapter are also applicable to own additional entities.)							
3.3.19	1st grade, 2nd grade, 3rd grade	3.3.5.01	(Until 15.05.2024, only applicable for organizations and/ or individual members with more than 10 workers that are present for one month or more during a year working more than 30 hours per week or equivalent, and own processing facilities of any size. As of 15.05.2024, applicable to all.) You have set salaries for workers according to CBA regulations where they exist or at regional average wages or at official minimum wages for similar occupations, whichever is the highest.	Salaries < legal minimum or CBA regulations OR it is impossible to calculate reference salaries.	Salaries ≥ legal minimum or CBA regulations but < regional average wages (evidence of regional average MUST exist).	Salaries ≥ legal minimum, CBA or regional average.		= RANK 3 AND all legal provisions and agreed benefits are respected for all workers.	0	M

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
3.3.19	1st grade, 2nd grade, 3rd grade	3.3.5.02	(Until 15.05.2024, only applicable for organizations and/ or individual members with more than 10 workers that are present for one month or more during a year working more than 30 hours per week or equivalent. As of 15.05.2024, applicable to all) You have specified wages for all employee functions and employment terms, such as piecework.	Salaries are discretionary and there are indications of discrimination.	Interviewed workers do not know roughly how much they will earn.	Organisation informs verbally OR refers to external sources of information (CBA, legal regulations) AND all interviewed workers know roughly how much they will earn.	Salary categories (including all additional benefits) are specified in writing AND all interviewed workers know roughly how much they will earn.	Salary categories (including all additional benefits) are specified in writing and made known to all workers in a way that is easy to understand.	0	C
3.3.20	1st grade, 2nd grade, 3rd grade	3.3.5.03	(Until 15.05.2025, only applicable for organizations and/ or individual members with more than 10 workers that are present for one month or more during a year working more than 30 hours per week or equivalent, and own processing facilities of any size. As of 15.05.2025, applicable to all) For work based on production, quotas and piece-work, during normal working hours, you pay the proportionate minimum wage or the relevant industry average, whichever is higher.	On average, pieceworkers earn < 80% of the equivalent salary on a monthly average OR it is impossible to estimate pieceworkers' earnings.	On average, pieceworkers earn 99-80% of the equivalent salary on a monthly average.	On average, pieceworkers earn at least the equivalent salary on a monthly average.	On average, pieceworkers earn at least the equivalent salary everyday.	All pieceworkers earn at least the equivalent hourly salary everyday.	0	M

Reference	Applicable for:	CC No.	FLOCERT Compliance Criteria	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Time	Criteria Type
3.3.20	1st grade, 2nd grade, 3rd grade	3.3.5.04	(Until 15.05.2025, only applicable for organizations and/ or individual members with more than 10 workers that are present for one month or more during a year working more than 30 hours per week or equivalent. As of 15.05.2025, applicable to all) You do not use production, quotas and piece-work employment as a means to avoid time-bound contracts.	Piece work is the main form of employment, clearly used in order to avoid time bound contracts and legal obligations.	There is only little piece work, but this is used to avoid time bound contracts and legal obligations.	There is no piece work OR the concerned workers prefer this type of employment.	= Rank 3 AND some benefits are paid to workers employed on piece work.	= Rank 4 AND all statutory benefits are paid in line with permanent employment.	0	C
3.3.20	1st grade, 2nd grade, 3rd grade	3.3.5.05	(Until 15.05.2025, only applicable for organizations and/ or individual members with more than 10 workers that are present for one month or more during a year working more than 30 hours per week or equivalent. As of 15.05.2025, applicable to all) The pay rate for work based on production, quotas and piece-work is transparently calculated and workers and workers' organisations are informed of it. Workers agree that this rate is fair.	There are no fixed rates OR the calculation is purposely unclear.	Interviewed workers are not able to calculate roughly how much they will earn.	Organisation informs verbally AND all interviewed workers are able to calculate roughly how much they will earn.	Rates (including all details) are specified in writing AND all interviewed workers are able to calculate roughly how much they will earn and they agree that this is fair.	Rates and an explanation of the method used to reach that rate are specified in writing and made known to all workers in a way that is easy to understand and workers agree that this is fair.	0	C
