

Main changes in the Contract Production (CP) checklist

- The wording of almost all the Compliance Criteria was changed from a “must” to “you do...” form. Example: “You must have an updated list of the registered producers” changed to “You have an updated list of the registered producers”.
- A 2.1.0.18: Limitation to cocoa was deleted as this applies to all products. The second part of the text was deleted as it is already covered by criteria A 2.1.0.05 and A 2.1.0.08.

You can also find a more detailed overview of the upcoming changes [here](#); as well as the full list of criteria on our [website](#).
